SOFT SKILLS

- Teamwork
- Time Management
- Leadership
- Effective Communication
- Critical Thinking

TECH SKILLS

- Python
- Java
- Java Script
- Data Structures
- Algorithms
- SQL, MySQL
- Machine Learning
- Web Development

LANGUAGES

- Nepali (Fluent)
- Hindi (Fluent)
- Hindi (Basic)

PROFILE

Computer Science student at Itahari International College with strong foundations in Java, Python, and JavaScript, and practical experience developing Projects. Passionate about creating efficient, user-friendly software solutions with a keen interest in web development. Combining technical programming skills with strong problem-solving abilities and excellent teamwork capabilities. Seeking an IT internship opportunity to apply my academic knowledge in a professional environment while further developing my technical and professional skills.

PROJECTS

Dating website (Match Maker) MARCH 28

Developed a full-stack dating application called Matchmaker as my second-year college project. Built using Django for backend functionality, MySQL for database management, and HTML/CSS for frontend design. The web application allows users to create profiles, connect with potential partners globally, communicate through an integrated messaging system, and plan in-person meetings. Implemented key features including user authentication, matching algorithm based on compatibility, and relationship progression tracking.
