🏷️ Career

Today was mostly about staying focused on my work. I set clear goals for the day and tried to complete them step by step. There were moments of distraction, but I managed to bring my attention back to what mattered. Writing this journal helped me acknowledge my effort and end the day with a positive mindset.

A Calm and Productive Day

January 10, 2026 • 7:49 PM

Mood:

😐 Neutral 😔 Negative

Tags:

🏷️ Fitness 🏷️ Self-care 🏷️ Work

Today felt calm and productive. I managed to complete my important tasks on time and felt focused throughout the day. Even though there were a few small challenges, I handled them without stress. Writing this journal helped me reflect on my progress and appreciate the positive moments of the day. Overall, it was a balanced and satisfying day.

Finding Balance

January 12, 2026 • 8:10 PM

The day ended on a quiet and reflective note. I spent some time thinking about my actions, decisions, and areas where I can improve. While not everything went

as planned, I learned valuable lessons that will help me grow. Writing this entry gave me clarity and a sense of peace before the day ended.

Learning and Small Wins

January 15, 2026 • 7:51 PM

Mood:

😊 Positive

🏷️ Self-care 🏷️ Reflection 🏷️ Fitness

Today was a day of learning and small improvements. I spent time understanding new concepts and fixing a few mistakes from earlier work. Although progress felt slow at times, I reminded myself that consistency matters more than speed. By the end of the day, I felt satisfied knowing I moved one step closer to my goals.

A Quiet but Meaningful Day

🏷️ Personal Growth 🏷️ Reflection 🏷️ Relationships

Today was not very busy, but it felt calm and balanced. I completed my daily tasks slowly and without pressure, which helped me stay focused. I spent some time thinking about my goals and how far I have already come. Even though nothing special happened, I felt peaceful and grateful for the small moments. Days like

this remind me that progress does not always need to be loud; sometimes being consistent is enough.

Good Friday is a very important and meaningful day in Christianity. It is observed on the Friday before Easter and marks the day when Jesus Christ was crucified. Christians believe that Jesus sacrificed his life on the cross for the forgiveness of human sins, which is why this day is remembered with deep respect and

devotion.On Good Friday, churches hold special prayer services, read passages from the Bible, and reflect on the suffering, love, and sacrifice of Jesus. It is a solemn day, so celebrations are avoided. Many people fast, stay quiet, and spend time in prayer and self-reflection. The cross is the main symbol of Good Friday, reminding believers of sacrifice, humility, and unconditional love.Although the events remembered are sorrowful, the day is called “Good” because Christians believe that Jesus’ sacrifice brought hope, salvation, and new life to humanity, which is later celebrated on Easter Sunday.mmm

🏷️ Family 🏷️ Reflection 🏷️ Relationships

Good Saturday, also known as Holy Saturday, is the day between Good Friday and Easter Sunday. It remembers the time when Jesus Christ’s body lay in the tomb after his crucifixion. For Christians, this day represents silence, waiting, and reflection, as it comes after the sorrow of Good Friday and before the joy of Easter.On Good Saturday, there are usually no major celebrations. Churches remain quiet, and many people spend the day in prayer and meditation. It is a time to reflect on faith, patience, and hope, remembering that even in moments of darkness, something new is about to come.Good Saturday symbolizes the waiting period before resurrection, teaching believers to trust in God’s promise and remain hopeful, as Easter Sunday brings the message of victory, life, and renewal. mdsc

I am Kriti Bista, a BSc (Hons) Computing student at Itahari International College,

affiliated with London Metropolitan University. I am passionate about software development and enjoy building practical applications that solve real-world problems. I have experience working with modern technologies such as .NET MAUI, Blazor, C#, SQL, Git, and GitHub, and I focus strongly on clean code, proper project structure, and version control practices. Through my academic projects, including the DailyJournal application, I have developed skills in application design, UI/UX improvement, debugging, and documentation. I am motivated to continuously learn new technologies and improve my technical and problem-solving abilities to grow as a software developer.
